PERSONAL PROFILE

Product Manager with experience delivering digital products across arts and culture (streaming, CRM, podcasting), B2B SaaS (compliance platforms), and digital transformation. Delivered measurable product outcomes including **driving 200,000+ audience interactions t**hrough digital experience optimisation, **growing user adoption by 35%,** and r**educed operational cycle times by 25% through data-led decision making. Passionate about making cultural experiences accessible to diverse audiences. Now seeking to build digital products at scale within customer-centric technology organisations.**

CORE SKILLS:

Technical (SQL, Data Analysis, Power BI, User Research, A/B testing, Wireframing, Customer Discovery)
Strategic (Roadmapping, Backlog Prioritisation, RICE, Cross-Functional alignment)
Tools (Google Analytics, SQL,)

PROFESSIONAL EXPERIENCE

Product Analyst (Contract) | Sparta Global Feb 2026 - present

- Owned product discovery and backlog refinement for digital transformation initiatives, defining user stories, acceptance criteria and new product features.
- **Reduced customer support resolution times from 4 hours to 20 minutes across 500+ monthly tickets through data-led service optimisation.**
- Managed stakeholder requirements, balancing user needs, operational constraints and delivery priorities to inform sprint planning.
- Owned discovery and launched payments and compliance **features for a multi-region platform serving 80 NZ parachuting schools.**
- **Led multi-platform rollout (iOS/Android/Tablet); acquired 800 sign-ups in 1 month via targeted onboarding.**

Product Marketing Manager (Contract) | CT20 Projects Jul - Oct 2025

- Led discovery and rolled out digital product enhancements across web, email, and SMS channels improving customer engagement and accessibility.
- Conducted user research and behavioural analysis to identify onboarding and accessibility informing feature prioritisation and delivery decisions.
- **Grew the user base by 50%, from 2,000 to 3,010 in 2 months by delivering accessibility-focused features tailored to multilingual British and Brazilian audiences.**

Product Operations Manager (Product Delivery) (Contract)| AWS via Hijinks Feb - Jul 2025

- Supported delivery governance, reporting, and operational coordination processes to improve visibility across delivery teams and stakeholder groups.
- Owned release readiness and quality assurance, resulting in **a 25% reduction in review cycle times from 12 to 5 weeks.**
- **Coordinated cross-functional delivery activities across operations, engineering and external vendors to ensure successful product releases.**

Digital Product Owner (User Journeys)| Somerset House Apr - Dec 2023

- **Owned the optimisation of digital customer journeys across podcast and CRM platforms, contributing to more than 200,000 podcast listens** through continuous product improvements.
- **Analysed customer engagement and CRM performance data using SQL-based analysis** and reporting techniques to identify user needs and improve platform performance through implementing features focused on shared learning.
- Developed product roadmaps informed by user research, analytics, operational insights and testing.
- **Validated assumptions through usability testing via mentee and mentor pairing system.**
- Partnered with technical, marketing and content teams to define requirements, prioritise enhancements, and deliver customer experience improvements.

Technical Project Manager| Bush Theatre (Streaming Platform) Apr 2021 - May 2022

- Led the delivery of a customer-facing streaming platform, coordinating discovery, release planning and cross-functional delivery from concept through launch.
- **Improved reliability and accessibility of download processes through automation, resulting in 60% reduction in streaming disruption (downloads) saving 20+ hours/week for external engineering team.**
- Owned customer onboarding, access management and support journeys for more than **3,000 users improving customer experience throughout the product lifecycle.**
- **Analysed beta feedback and platform data to prioritise product improvements before launch, reducing post release issues.**
- **Trained 50+ operational staff on platform workflows and issue resolution processes, reducing support requests by 35%.**
